DEPARTMENT OF FISH AND GAME  
**2011 MARBLE MOUNTAINS ROOSEVELT ELK HUNT**  
[www.dfg.ca.gov](http://www.dfg.ca.gov)

**General Information:** Congratulations on being drawn for the Marble Mountains Roosevelt Elk Hunt! The hunt area is generally heavily forested, steep, and rugged. Elk do not occur throughout the entire area so gathering information in advance of your hunt will likely be useful. We have prepared the following information to help you have a successful hunting experience.

All hunters should read and be familiar with regulations contained in the current Hunting Regulations for Mammals and Furbearers. Please be aware that there were hunt boundary changes made in 2010. Refer to the hunt boundary description for the legal boundaries in Title 14 section 364. Most elk within the hunt area occur on public lands, however, occasionally animals are found on private property. Remember you must obtain **written** permission to hunt on private property and hunter trespass laws are strictly enforced.

Some of the elk within the hunt area have been fitted with radio collars. The data we are gathering is critical to the management of this herd. In the event that you harvest a collared animal, please contact Mr. Bob Schaefer at (530) 598-6820 immediately so that we can make arrangements to obtain the collar. In order to prevent the loss of data it is important that we are contacted as soon as possible.

**Public land:** Most public land within the hunt area is administered by the Klamath and Trinity N.F. The primary access into the hunt area is Highway 96, Forest Highway 93 along the Salmon River, and Highway 3 for access to the Trinity side. Many county and National Forest roads provide good access to public lands. Please be aware that some National Forest roads may be closed to vehicle access during the hunting season to protect natural resources or because they are impassible. Generally, these areas are open to hunting provided access is made by non-motorized vehicle.

**Maps:** USFS maps are available locally at most USFS offices; by contacting the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737); or ordered by phone (406-329-3024), fax (406-329-3030), mail at USDA Forest Service, National Forest Store, P.O. Box 8268, Missoula, MT 59807, or on-line at <http://www.nationalforeststore.com/>. Klamath National Forest maps provide general information regarding the location of public lands and roads within the hunt area. District transportation maps are also available for a fee. These maps depict many roads not identified on the general National Forest map.

**Weather:** Weather in this region is highly variable. It may be quite warm but early storms are common. Snow during your hunting season would be unusual but heavy rains can occur making some roads impassable. You should be prepared with appropriate clothing and equipment for a variety of weather conditions. There is a potential for fire due to the high fuel loading and lightning events that occur in this zone. Check with the US Forest Service for the most up to date news on closures at [www.fs.fed.us](http://www.fs.fed.us). Be aware that refunds or tags will not be reissued due to fire closures.

**Camping:** Camping is available at National forest campgrounds and is usually permitted at undesignated sites on the forest. Please refer to the Klamath or Trinity National Forest map for designated campgrounds or contact the Klamath or Trinity National Forests for further information.

**Outfitters and Guides:** Outfitters and guides offer a variety of services for elk hunters interested in hunting in wilderness areas. Many have limited space so be sure to contact them as soon as possible to reserve their services. A list of outfitters and guides permitted by the US Forest Service within the hunt area is available from the Klamath National Forest. It is your responsibility to verify any guides you retain have a **current guide license** issued by the Department of Fish and Game. If you plan to hunt on the US Forest Service property your guides will also need to be **permitted** with the US Forest Service. Failure to verify the proper licenses required may result in a citation to both the hunter and guide. A list of licensed guides can be obtained online (<http://www.dfg.ca.gov/licensing/hunting/>). Scroll down to the Related Information section and select Big Game Guide List.

**Care of Meat:** Conditions during the elk hunting season can be quite warm, even with mild temperatures an improperly handled carcass can lead to spoilage. The weather and the steep, rugged terrain within the hunt area make it critical you are prepared to properly care for the meat if you harvest an animal. You should be physically fit and prepared to skin and quarter or de-bone your elk immediately after it is tagged. Elk are large mammals and hold heat which leads to spoilage. Open up the elk as soon as possible including the neck area. The meat should be hung in fly proof breathable sacks in the shade until you pack it out. If you are hunting by yourself, you will need, at minimum, four game sacks, plenty of rope, a game hoist, a knife, a knife sharpener, and a pack frame. A meat saw or hatchet and a tarp would also likely be helpful. Failure to properly care for or remove all edible portions of a harvested animal can lead to a violation of the Fish and Game Code. Be prepared to remove all portions of a harvested animal in a timely fashion to prevent wanton waste, violators will be cited.

#### **Meat Cutting and Storage Facilities:**

Parry's Market  
143 Davis Road  
Happy Camp, California 96039  
(530) 493-2359 or (530) 493-2621  
Provides cut, wrapping, freezing, and hanging services.  
Open Monday-Friday, but can arrange for service on weekends or evenings.

Shasta Valley Meats  
410 South 11th Street  
Montague, California 96067  
(530) 459-5149 or (530) 459-5238  
Provides cut, wrapping, freezing, and hanging services. Open Tue-Sat, arrange weekend.

Siskiyou Distributors  
1313 Foothill Drive  
Yreka, California 96064  
(530) 842-1616  
Provides cut, wrapping, freezing, and hanging services.  
Open Monday-Friday and Saturday morning 0900-1200

**All hunters MUST return elk tags to the Department within one week after the close of the elk season regardless whether they harvested an elk.**

The Department is collecting teeth from animals taken by hunters for age analysis. Successful hunters should follow directions on the tooth envelope (included with this flyer) to remove the two front teeth (only the two front teeth please do not include sections of the jaw) and submit them to the Department. Please do not wrap teeth in plastic or foil. The Department will post the age analysis results at <http://www.dfg.ca.gov/wildlife/hunting/elk> for hunters that submit teeth from their hunt. The age of your animal can be found by using your hunting license number (from the 2011-2012 license year). Please note that these results may not be available until December of the **following** year.

**Deer Season Overlap:** Please be aware that the last two days of the Marble Mountains Roosevelt Elk Hunt overlap with the first two days of the general deer season. Therefore, on those dates you may encounter deer hunters in the field.

**Additional Information:** Our goal is to assure that you have a safe and enjoyable hunting experience. If you have any questions regarding this hunt, please contact Mr. Bob Schaefer at (530) 459-3164 or Mr. Scott Hill at (530) 529-7162 or Mr. Joe Hobbs, Elk Program Coordinator, (916) 445-9992. Information is also available at the Department's website [www.dfg.ca.gov](http://www.dfg.ca.gov). Again, congratulations and we hope you have an enjoyable hunt.
